JAPAN HAS SEIZED MASAMPHO.

At Least Five Russian Commercial
Steamers Have Been Captured
by Japanese Since Saturday.

Formal Declaration of War Has Been
Prepared and Approved By Japan-
ese Cabinet—The Mikado is
Superintending Affairs.

Tokio, Feb. 11.—Undaunted by the absence of official confirmations Japan is rejoicing over a great naval victory at Port Arthur. Early Wednesday came a cable report from the Japanese consul at Che Foo saying that early Monday the Japanese torpedo boats destroyed three large Russian warships off Port Arthur. Thereafter Adm. Togo's fleet of 16 warships engaged the entire Russian fleet remaining off the port. The consul was unable to give the result of the main engagement, but said when the steamship Columbia passed the scene of action all of the Japanese warships were preserving their alignment and fighting vigorously and steadily and apparently uninjured. The newspapers here published extra editions containing news of the battle and produced the first popular demonstration of the war. Flags were raised everywhere and excited crowds thronged the streets. Later in the day came a cablegram from Paris saying that Vice-roy Alexieff had reported to St. Petersburg that three ships had been injured by a torpedo attack.

Japan seized Masampho Sunday and dispatched a heavy force there. Japan will fortify the port and establish a naval and military base there. Masampho is an exceedingly important point as it controls the Korean channel, and is an excellent base for future operations.

A formal declaration of war was expected Wednesday night. The proclamation has been prepared and approved by the cabinet. Foreign Minister Komura has gone to the palace to secure the emperor's approval.

The mikado is personally superintending affairs, and the cabinet holds daily sessions. The government has issued orders for the protection of all Russian subjects residing in Japan.

Baron Kanako and Baron Sukematsu have been sent to the United States and Great Britain to explain Japan's position and attitude in the present conflict.

The Japanese have captured at least five Russian commercial steamers, including the Ekaterintoslav, Moukden, Russia, Argun and Alexander. They were captured by the Japanese in Korean and adjacent waters at various times since Saturday by small cruisers. Some of the steamers are rich prizes. The small steamer Koelk is detained at Yokohama, its status not being clear.

London, Feb. 11.—Special dispatches from Tokio Thursday morning announce the arrival of Japanese troops at Seoul, but beyond this the dispatches published in the newspapers here Thursday morning add practically nothing to the knowledge of the actual situation.

The Tien-Tsin correspondent of the Standard sends in a report that the Russians have massacred 100 Chinese at Liao Yang, in consequence of which the officials at Shan Hai Kwan are greatly alarmed and are appealing to Peking for protection.

The correspondent of the Daily Mail at Tien-Tsin says that Li, the favorite court official of the dowager empress of China, has been decoyed away and beheaded by orders of Yuan Shi Kai, commander-in-chief of the Chinese army and navy. Li was pro-Russian in his feelings.

The Che Foo correspondent of the Daily Express asserts that the Russian cruiser Diana was injured by a shot from the Russian shore battery at Port Arthur and that the cruiser Novik and the battleship Poltava have also been beached at Port Arthur.

Special dispatches from Vladivostok accuse the Russians of openly looting Japanese houses there without interference by the police.

RUSSIAN VESSELS.

Eight Were Captured by the Japanese
at Chemulpo.

San Francisco, Feb. 11.—A cablegram from Nagasaki states that the Russian cruiser Variag, which was reported to have been sunk Tuesday at Chemulpo by the Japanese fleet, was captured and arrived at Sasebo. The dispatch also states that in addition to the Russian vessels damaged in the torpedo attack at Port Arthur, that

seven other vessels were captured. It is also reported at Nagasaki that Gen. Kuropatkin has arrived at Harbin to take command of the Russian land forces.

Waters was serving a sentence for burglary.

Voce Method of Voting.

Frankfort, Feb. 11.—Senate—The George bill, providing for a vote of the people on a return to the viva voce system of voting instead of the secret ballot, was passed, yeas 29, nays 7. The republicans all voted no, and Senators Campbell, Cammack and Spence voted with them at first, but changed their votes. The bill providing for the re-sale of 20-year franchises when they expire in cities of the first class was made a special order for next Wednesday. The senate also passed the house bills appropriating money to improve the confederate soldiers' home and increasing the per capita allowance from \$125 to \$175. The democrats and republicans all united on these bills and there was not a vote against them. Senator Taylor offered a joint resolution to have the names of Capt. Ben C. Milam and Cyrus Calvert, veterans of the Mexican war, who recently died, carved on the state monument in Frankfort cemetery with others whose names are already there.

House—The house passed bill No. 19, which provides that the director of the state experiment station, upon receipt of fees and a sample, shall issue to fertilizer companies sufficient number of labels to tag not less than 20 tons of fertilizer, on which label shall be printed the name and address of the manufacturer, the name of the fertilizer, date of analysis and the percentage of composition, with a certificate authorizing the sale of such package. IN THE CONGRESS.

The House Disposed of the Connell-
Howell Contested Election Case.

Washington, Feb. 11.—Senate—The major portion of the time of the senate in open session Wednesday was devoted to a speech by Mr. McCumber, who supported the Panama canal treaty and justified all the acts of the administration in connection with the recent revolt. A number of private pension bills were passed.

House—The house disposed of the Connell-Howell contested election case from the Tenth Pennsylvania district in favor of Mr. Connell. The republicans, with the exception of Messrs. Lanning (N. J.), Shiras (Pa.) and Parker (N. J.), supported the resolution unseating Mr. Howell and giving the seat to the contestant. The democrats solidly supported Mr. Howell. Mr. Shiras and Mr. Lanning spoke in opposition to the unseating of Mr. Howell. Mr. Connell was promptly sworn in and took his seat. The house then resumed consideration of the senate amendment proposing a loan of \$4,600,000 to the Louisiana purchase exposition, on which a vote on the question of concurrence will be taken Thursday. Further opposition to the proposition developed in the debate Wednesday.

COMPARATIVE QUIET.

The Condition of Senator Hanna Re-
mains Practically Unchanged.

Washington, Feb. 11.—Senator Hanna's condition remains practically unchanged. The restlessness which fatigued him Tuesday night has been followed by periods of comparative quiet and sleep during the day and the irritability of the stomach has again partially yielded to treatment. The physicians say that no complications have developed. It is this feature of the case that the physicians are guarding zealously against as they realize that if any complications develop in the senator's distressingly weak condition the result may be fatal quickly. The doctors are not yet able to predict with any certainty when the crisis in the case will occur. All they know for certain is that the senator now has had the fever continuously for 11 days and the disease, they say, generally runs its course in three or four weeks. The doctors say they are satisfied with the progress of the case, although they do not conceal their apprehension that unforeseen complications may occur at any time.

DEVISING MEANS.

Representative Men of Stricken
Baltimore, of the State and
Legislators Hold a Meeting.

THE SITUATION IS NOW CLEARING.

The Supreme Question Was That of
Calling for Soldiers to Take
the Place of Militia.

To Efficiently Guard the Hundreds of
Millions of Treasure in the Smoul-
dering Ruins Federal Soldiers
Will Be Needed.

Baltimore, Feb. 11.—The situation in stricken Baltimore began to visibly clear Wednesday after a conference at the Baltimore hotel between Mayor McLane, a special joint committee of the legislature and a formidable delegation of representative business men. This conference was arranged with a view of meeting in a practical way the awful exigency which this community now faces. At this meeting, besides the mayor, there were present influential members of the state law-making body, the board of public works, a dozen bank presidents, former Gov. Smith, United States Senator-elect Rayner and several of the leading citizens.

The supreme question to be decided was that of calling upon the national government for soldiers to take the places of the two state militia regiments now doing police duty in the burned district. The constitution of Maryland requires that no such request can be made of the president except by authority of the state legislature. The legislative committee was present to hear the views of the mayor and officers of the city on that point.

A brief discussion showed the belief of those present that this is not a time for sentiment as to the ability of the state to take care of itself and that the United States soldiers were needed and needed at once.

On this score it was shown that the militiamen were already much exhausted by their long continued sentry duty, that they should be relieved so that they might return to their several vocations and that the militia on active duty is costing the state \$50,000 a day.

Mayor McLane was particularly insistent that to efficiently guard the hundreds of millions of treasure that lie buried beneath the smoldering ruins called for the strong arm of the federal soldiers. The announcement of the legislative committee that it would recommend at once the immediate passage of the necessary resolution was received with pleasure by the officers and the business men present and now that the legislature has formally acted there is every assurance that a national cordon around the devastated region will inspire a feeling of hopeful confidence in the future.

Mayor McLane's announcement that he will appoint an emergency committee of citizens to act as an advisory board to municipal officials is a great step forward in the way of putting the situation upon a practical, business-like shape.

There is no doubt that within the past 24 hours the business men of Baltimore have been aroused in an extraordinary degree to the importance of doing everything possible to keep their trade advantages from slipping away. Merchants and bankers have been conferring on this subject and the prevailing conviction is that it will require the utmost vigilance to prevent the deflection of a considerable volume of commerce to Philadelphia and New York. It is believed here that the situation may be saved if the debris can be cleared away and temporary buildings erected within four months. That a large percentage of the spring trade will be lost is inevitable, but there is a set resolution among wholesale merchants that the percentage shall be as small as possible.

The opening Wednesday of the board room by the chamber of commerce and the receipt of quotations, the uninterrupted shipments of grain cargoes, the certainty of state aid and the notification by some of the large insurance companies of their readiness to pay 50 per cent. on losses, and the action of the legislature in asking for federal troops, constitute a chain of incidents which have contributed materially to the restoration of public confidence and cheerfulness.

River News.

The Bonanza passed up last night for Pomeroy.

Keystone State up to-night for Pittsburg and Tacoma for Pomeroy.

The towboat Bellevue, which was sunk on the Louisville Falls by the ice a week ago, has been raised.

The rise from Pittsburg reached here last night, and with it the heavy ice that has been running out of the streams above that point.

The run of ice has been so heavy out of the Allegheny and Monongahela that the coal shipments from Pittsburg have been delayed. The river is falling at that point, after reaching a stage of twenty-one feet. About 20,000,000 bushels of coal is ready for shipment.

There's Nothing New.

The delicate operation of trephining was known to the neolithic age, when men lived in caves and fought with stone hammers. Savage tribes perform the same operation today. Eighty per cent of the cases treated in New Britain with a piece of stone or shell as a surgeon's knife recover. George Washington's famous set of false teeth, which fitted so badly that they gave his mouth the square look noted in his later portraits, were almost the only ones in the country in his day. The art of making them had been rediscovered for perhaps the hundredth time by a French doctor. Yet false teeth have been found in Etruscan graves made long before the historic period.

The newest model of "double saucepan," to prevent food from burning while being cooked, has been dug up in the ruins of Pompeii.

An ancient vase in a Roman museum, made no one knows when and representing Homer's heroes resting during the period of the Trojan war, represents one of the young fellows as busy with a "punching bag" hung at the limb of a tree.

RAISE MORE POULTRY.

The Hen Brings the Farmer the Greatest Returns Upon the Capital Invested.

[W. C. Ellison in Wilmington (O.) Democrat.]
To the average person the American hen is a very insignificant factor in the business world. We are sorry to make the following statement, but nevertheless it is true—that quite often we hear farmers remark that "there is no money in chickens, but it is employment for the women folks." If the poultry was eliminated from the farms, not only would the breakfast be served without coffee, and the many other luxuries and necessities of the household be found wanting, but the bankrupt attorney would find it necessary to increase his office force to attend to his enormous business.

Did you, as a farmer, ever stop to think that eggs are refined wheat, oats, corn, grass, etc., and they contain much that on the farm (without the hen) would go to waste? In the winter a basket of fifty dozen will bring more money than a load of hay, which took a large patch of ground to grow, a team to cut, a horse and man to rake, two men to stack, and a team and wagon to take it to market. Statistics tell us that the American hen earned \$200,000,000 during the year 1900—enough money to buy all the gold and silver mined, and in addition all the wool clips, potatoes, rye and barley produced that year. Thus you see she has given an excellent account of herself.

The man who falsely accuses the hen of being non-profitable, if accompanied home, you would not wonder at his assertions. The thermometer hovering about zero, you find his poultry roosting in trees, on wagons, fences, etc., with no covering or protection save the blue

THE KING'S MARYS.

(Lula Clark Markham in Christian Standard.)

MARY OF NAZARETH.

With bated breath and awe-filled eyes, I gazed
Up from the illies staring wonder-white,
Watching with me the angel's silvery flight
Straight on into the glory that outblazed
From gates ajar to let him pass; all dazed
And shaken by the wondrous sound and sight,
Ah! had I heard the messenger aright
Whose holy lips my simple life had praised?

This was the meaning of my lifelong dream,
My patient striving after purity—
The hope of Israel on my breast to lie,
God's own Anointed coming to redeem.
He said—my heart still quivers with the word—
That I should be the mother of the Lord!

MARY OF BETHANY.

I took my alabaster box of rare
And fragrant spikenard as He sat at meat,
And poured it out upon his tired feet,
Then wiped them tenderly with my long hair.
One who, with dark, derisive face, sat there,
Rebuked my lavish gifts with scornful heat,
And Martha, deeming my hasty act unmeet,
Frowned on me, pausing 'mid her household care.

But He! He turned his sweet, benignant gaze
Upon me where I knelt, and others' praise
Or blame was naught. He spoke words strange
And sad.

Which heavy with dark portent seemed to fall;
But 'mid my fears I was so glad, so glad,
Because I loved Him and had given my all.

MARY MAGDALENE.

He was not there! my last, long hope was dead.
I had so longed with nard and balm and myrrh
To anoint the poor, bruised form, and wipe the
sweat
Of blood and thorn-stains from the loved head;
But He was gone! I stood uncomfited,
Blind with my grief, outside the sepulchre,
And seemed to hear the silken, skyward whir
Of those strange visitants who watched his bed.

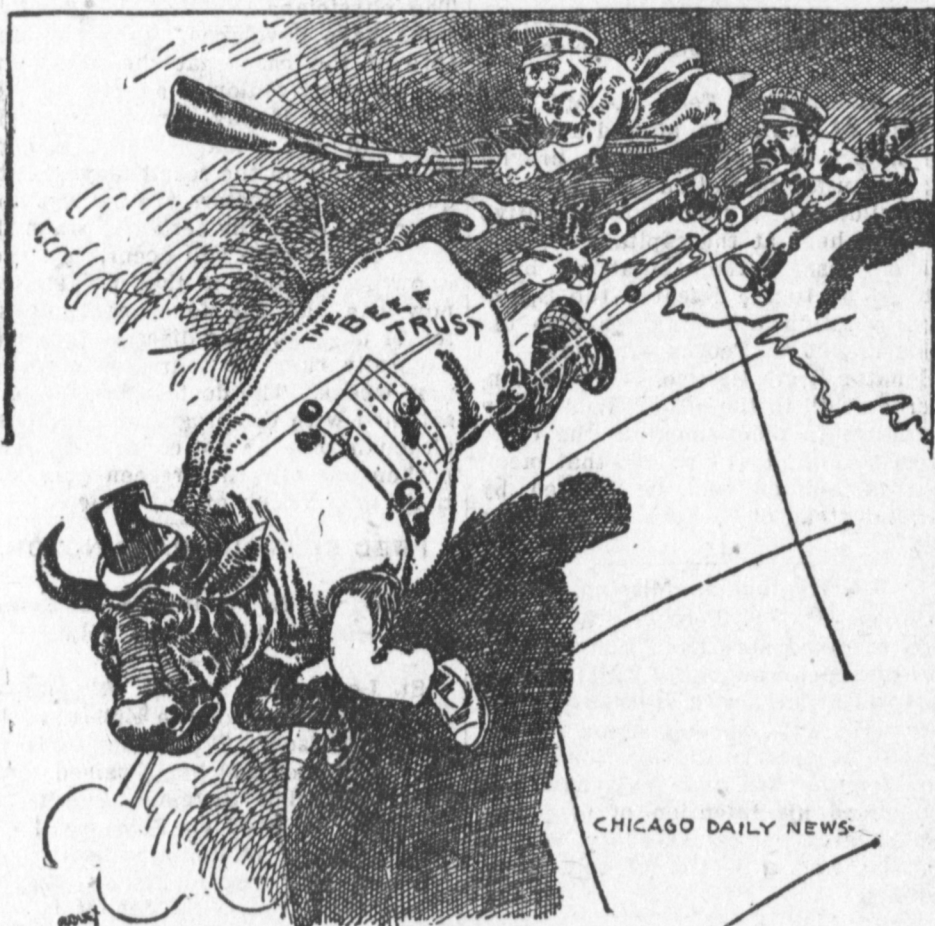

When, lo! a Voice from out the dewy gloom
Said tenderly: "Woman, why weepest thou?"
Trembling, I saw the calm, familiar brow,
And, kneeling rapturous, 'mong the garden
bloom.

I cried, "Rabboni!" lovingly and low,
And knew my Lord as Conqueror o'er the tomb,

Jury Disagreed in the Jerry Bruce Case.

The trial of Jerry Bruce, of Aberdeen, for the killing of Peter Grant, at a railroad camp below Levanna last fall, was held at Georgetown last week. The case was hotly contested and resulted in a disagreement of the jury. Bruce was released on his own recognizance Monday and came home. It is not likely that he will be tried again soon or ever, says the Ripley Bee.

Why Don't They Form an Alliance and Start a Popular War?

canopy of heaven. In the daytime they quench their thirst by eating snow or drinking water from a frozen cow's track in the barn yard. Their food is just what they find, and this is usually corn. Is it any wonder, under these circumstances, that the hen is branded as non-profitable?

Chemical analysis of corn and eggs do not compare favorably. Consequently corn is not a rich egg producer. Oats is the richest food we have in egg producing properties; hence should be our principal food. Wheat is second on the list. All grain fed to poultry should be thrown in litters, so as to induce exercise, for next to food this is the important factor. A good system of feed, and one used by some of the largest poultry farmers, is as follows: Oats in the morning, wheat at noon and corn in evening. A mash composed of equal parts of corn meal and wheat bran, fed three or four times per week, of mornings. Grit, dust bath and fresh water should be kept before them at all times. If obtainable, green cut bone is the most nutritious food extant and should be fed every feed.

Mr. W. H. Means has sold a lot at Flemingsburg to Mr. Joseph Power for \$1,250.

Green's Administrator vs. M. and B. S. Affirming the above case from Green-up, the Court of Appeals says:

Where appellant's intestate attempted to swing upon a moving freight train and in doing so slipped, falling under the car which crushed him to death, there being no proof of negligence on the part of the servants in charge of the train, a peremptory instruction to find for appellee in an action against it for damages was proper.

While Section 318, Civil Code, authorizes the trial court to allow a view of the place of the accident by the jury, it does not compel the court to grant such view, and it is in the discretion of the court to grant or refuse it.

W. T. Cole, A. D. Cole for appellant; E. L. Worthington, W. H. Wadsworth for appellee.

The case of the Commonwealth against Dick Jackson, indicted with Clarence Thomas for the murder of Dave Daily, was continued till the next term of court. Thomas got a life sentence, and Jackson has not been anxious for a trial at this term.

In the Circuit Court this morning, Judge Harbeson passed sentence on Elsie Owens, Clarence Thomas, Neal Potts, all colored, and also on Mary Gifford and Thomas Lowery, all of whom have been convicted at the present term and given sentences in the penitentiary.

The coal shipments over the Chesapeake and Ohio for the six months ending December 31 last reached 2,746,512 tons, an increase of 1,517,674 tons over the shipments for the corresponding period of the preceding year. The coke shipments were 177,760 tons, an increase of 34,557 tons.

The latest news from Mr. Ed. Glenn, who was sandbagged and robbed in St. Louis some days ago, is a little more hopeful. His jaw was broken by the blow dealt him by the robbers, and it was feared for a time that blood poisoning would result. His wife left Wednesday for St. Louis, to be with him.

Chas. G. Crosby, of Calumet, Mich., a former Ripley boy, has struck it rich in some copper mining stock that he owns. He has been offered \$150,000 for his holdings, says the Bee, and has concluded to sell and move to California and live at his ease. Mr. Crosby has a number of relatives in this city and county, being a cousin of the late Mrs. Jacob Marsh.

HAPPY RESULTS

Have Made Many Maysville People Enthusiastic.

No wonder scores of Maysville people grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Maysville by Doan's Kidney Pills.

Mr. W. H. Paul, of Market street near Third, says: "I procured Doan's Kidney Pills at J. Jas. Wood & Son's drugstore, corner of West Second and Market streets, and one box cured me of pains in my back and other evidences of a disordered condition of the kidneys that had given me much trouble for two years or more. This statement of fact is the strongest endorsement Doan's Kidney Pills could have as to their wonderful value."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—DOAN'S—and take no substitute.

MR. MIDDLEMAN'S HEAD CUT OFF.

Our Motto: Direct From Manufacturer to Consumer—The Smith & Nixon Piano Co.

Open Permanent Branch at Maysville, Ky.

The Smith & Nixon Piano Co. last week perfected arrangements with Messrs. John I. Winter & Co. to look after their interests in North-eastern Kentucky, with Maysville as distributing point.

A superb stock of instruments will hereafter be carried in Maysville, Ky., at the store of John I. Winter & Co.

Mr. Claude P. Hanna has been employed to give his entire attention to sales and contract work, and we feel that the citizens of Maysville, as well as the dealers throughout this territory, are to be congratulated upon securing Mr. Hanna's services—for a long acquaintance has taught you confidence in this gentleman's methods.

Professor Milton B. Mawhorter, the eminent composer and thorough artist, from Calver, Ind., has been employed to give his entire attention to entertainment and exhibition work. Professor Mawhorter needs no introduction. He will be remembered by all as that prince of entertainers who appeared each night during the week of free concerts given by John I. Winter & Co. early in January of this year. With Mr. Hanna to look after contracts and Professor Mawhorter to entertain, we feel that our Maysville branch will receive conscientious attention.

We will serve you well. The Smith & Nixon Piano Co., bear in mind always, are manufacturers of pianos, and under their arrangement with John I. Winter & Co., have entirely eliminated the middleman. Their pianos come to you direct from manufacturer to consumer. A saving of from \$30 to \$150.

GIVEN THE LIMIT.

Thomas Lowery, Alias William Finn, Sent
Up For Ten Years For Nipping W.
R. Varian's Diamond.

The trial of Thomas Lowery, indicted
for stealing a diamond stud from Mr. W.
R. Varian on Barnum & Bailey's circus
day last fall, came off in the Circuit
Court Wednesday. The jury returned a
verdict of guilty, and fixed the penalty
at ten years in the penitentiary,—the
limit for the offense charged. Lowery
stated that his right name is William
Finn.

Mr. Varian was aboard a C. and O.
train when his diamond was stolen.
The train was at Dover, and on discover-
ing his loss he chased Finn through the
train and captured him, turning him
over to an officer on reaching Maysville.

Ex State Senator Charles B. Poyntz re-
quested to be placed on the stand and
explained his connection with the efforts
to get Mr. Varian to drop the prosecu-
tion. A prominent tobaccoist of Cov-
ington had called him up over the long
distance 'phone and asked him to see
Mr. Varian. This he did, and all the
conversation he had with Mr. Varian
was in the presence of Sheriff Roberson.
What he did was done simply as an act
of courtesy to the Covington tobacco
merchant.

By Mistake of Texas Ranch Boss Equine Quarters Are Prepared for Lady Mackenzie.

The announcement that Lady Constance Mackenzie would arrive at Alice, Texas, on a certain date led to an amusing mistake.

The telegram informing R. J. Kleburg, of the Santa Gertrude's ranch, of Lady Mackenzie's proposed arrival came from a northern Texas ranch, where she had been visiting. Mr. Kleburg was absent and the boss of the ranch received the telegram.

The ranch boss it not up on titles of nobility, and he concluded that Lady Mackenzie was a fine, blooded mare that Mr. Kleburg was sending, so he telephoned a livery stable man that Lady Mackenzie would arrive, and that, as she was a high-bred animal, he would be expected to take special care of her until she could be forwarded to the Kleburg ranch.

A fine box stall was prepared, and the mistake was not discovered until the train arrived.
